Stingray Systems S2510/S2515 Floor Mounted Eye/Face Wash

Series: S2510/S2515

The S2510/S2515 emergency eye/face wash is a floor mounted unit that shall be manufactured of corrosion resistant materials. The manifold assembly shall be a nickel-plated brass unit with 1" NPT female connections for inlet and drain piping. It shall include a centrally located activator with universal ANSI compliant sign.

The bowl assembly shall include a First Aid Red ABS bowl (or stainless steel bowl or no bowl at all). The spray heads shall be PVC with dust caps and designed to flow at the specified flow rate. The spray heads shall be incorporated into a Quick Switch Eyewash Block that can be easily removed and serviced, allowing the supply piping to be flushed. The Quick Switch Eyewash Block (with optional integral point of use filters) shall be a single supply source eyewash unit to ensure symmetrical and equal flow through each spray head. The eye/face wash will come complete with nickel-plated inlet pipe.

The eye/face wash shall incorporate a 1/4" thick base plate that is 8" in diameter and shall be secured to the floor with appropriate anchors. The standpipe shall be galvanized steel (or epoxy coated or stainless steel) and will serve as the drainpipe to take water away from the fixture. It shall be at the correct length to get the spray heads to the correct elevation per ANSI/ISEA Z358.1. The eye/face wash shall be installed level and be self-draining to hinder bacteria growth. The eye/face wash shall also be independently certified to meet the latest ANSI/ISEA Z358.1 requirements.

As an eye/face wash, this unit will have a regulated flow rate of more than 3 gpm measured at 30 psi.

The modular design will allow for modifying the specs of eyewash without replacement of the whole unit.

Model Number:

- S2510 Floor Mounted Standard Eye/Face Wash
- S2515 Floor Mounted Barrier Free Eye/Face Wash

Pipe Finish:

- Galvanized (**GA**)
- Epoxy Coated (**EP**)
- Stainless Steel (**SS**)

Quick Switch Eyewash Block Options:

- Filter (**FLT**)
- No Filter (**NFT**)

Bowl Material Options:

- ABS (**AB/NA**)
- Stainless Steel (**SS/NA**)
- No Bowl (**NA/NA**)

For a complete **TEPID** solution, this fixture shall be combined with a Stingray SV107 emergency mixing valve.
